

Battery Installation Instruction

1. Slide open the battery door cover.
2. Insert the flat, negative ends of the AAA batteries against the springs. Then push the raised, positive ends into the flat side of the compartment.
3. Close the battery door cover.

Note: Install batteries with polarities reversed alternately, follow the marks in the compartment. (Both negative ends facing the spring contacts).

 **Note:** If the device will not be used for an extended period, remove the batteries to prevent battery leakage.
